Brand: Pipercross

Product Code: PXC6100LH

Availability: 7 Days

Weight: 1.00kg

Dimensions: 60.00cm x 30.00cm x
20.00cm

Price: \$475.00

Short Description

Designed in conjunction with a leading kit car manufacturer, the PX600 air box is designed for road and competition use, where there is a requirement to reduce drive by noise.

Comes with internal air filter and flexible intake pipe.

Description

The air box can replace any existing PX600 air filter as they utilise the same base plate footprint, available in both left and right hand entry (when looking down the trumpets) they are sure to fit most applications. To suit your needs you can choose an air box with not filter/intake pipe if you are planning your own filter setup or use the Pipercross integral filter and cold air feed pipe.

Features

- Fits onto any existing PX6000 base plate
- Perfect for reducing drive by noise
- Reduces temperature of intake air
- Available with 75mm or 100mm cold feed
