Availability: 7 Days
Weight: 1.00kg
Dimensions: 40.00cm x 10.00cm x 15.00cm

Price: \$770.00

Short Description

Do you need to upgrade your ignition system due to a recent Sniper EFI installation, but have no idea which option is best?

The Holley Sniper Dual Sync distributor includes a dual hall effect sensor to give both a crank and sync (cam) position signal for fully sequential control of aftermarket EFI. Perfect for use with our Heritage Quad IDF downdraft intake and Emtron KV or SL engine control units.

Description

Features:

- Hall Effect crank trigger sensor housing provides a noise-free RPM signal to the Sniper ECU
- Billet distributor housing provides corrosion resistance and stylish looks!
- Patented Clear Installation cap eliminates any confusion while installing the distributor.
- Easiest plug and play way to add sequential fuel and ignition control to aftermarket EFI.
- Distributor shutter wheel is pinned and welded to the shaft, for decades of reliable accuracy.

- Includes Wire Retainer for a clean installation.
- Comes with Cast Gear Installed - contact camshaft manufacturer for recommended gear material.
