
Double Effect Quickshift Sensor - Analogue Output

Brand: Competition Systems

Product Code: SEN-DE-M6-DO

Weight: 0.20kg

Dimensions: 8.00cm x 5.00cm x 5.00cm

Price: \$695.00

Short Description

Senses gear shift force in both push and pull directions so it can detect an upshift or a downshift. Suitable for all sequential shift systems.

Description

This model has an analogue output that centres around 2.5V and pulls either up or down from there, depending on the direction.
