

Bosch Motorsport MSA Box II - Diagnostics Cable

Brand: Bosch Motorsport
Product Code: BOSF02UV00327-03
Weight: 1.00kg
Dimensions: 20.00cm x 20.00cm x 5.00cm
Call for Price: +613-8743-5550

Short Description

- Universal communications cable for Bosch motorsport devices such as MS6 ECU and ABS M4 and M5 units
- Ethernet, CAN and K-line communication
- USB interface to PC/Laptop
- 35-pin AS Connector interface to vehicle

Description

The MSA-Box II is the low cost unit for PC-supported calibration and configuration on Ethernet, K-Line or CAN interface of an ECU. The MSA-Box II is coupled to the PC via the USB interface. This ensures a powerful and universal link to all common PCs. The coupling to the ECU is effected via Ethernet, K-Line or CAN-interface of the diagnosis interface.

Connector Pin Out Connectors and Wires

Connector 8STA 6-12-35PN

Mating connector 8STA 0-12-35SN

Pin 1 Terminal 30 (permanent pos)

Pin 2 Terminal 15 (switch pos)

Pin 3 GND

Pin 4 CAN_High

Pin 10 K-Line

Pin 8 RxD+

Pin 9 RxD-

Pin 11 TxD+

Pin 12 TxD-

Pin 16 CAN_Low

Pin 22 SCR

Diagnosis wire length 2 m

USB wire length 0.5 m
