

Jenvey Turbo Plenum small 70mm inlet

Brand: Jenvey
Product Code: APSC2-70-L
Availability: 7 Days
Weight: 5.00kg
Dimensions: 50.00cm x 30.00cm x 20.00cm

Price: \$1,525.00

Short Description

The Jenvey cast aluminium plenum has been designed to offer maximum performance on turbo and supercharged motorsport engines at excellent value.

Description

The Jenvey universal turbo plenum has been designed to offer maximum performance on turbo and supercharged motorsport engines at excellent value and has been seen to support over 1000BHP. The plenum is designed specifically for boosted applications with the diffuser necked into the main plenum volume to ensure even pressure distribution across all cylinders as determined from extensive CFD. The interface with the base is 'o' ringed for perfect pressure seal and easy rebuilds. All bolts are outside the plenum for engine safety. The plenum can be fitted onto 4 separate throttle bodies, a pair of TB bodies or used with a 70mm SFGT single throttle body in conjunction with a Jenvey manifold. Overall volume is 4.5L.
