Product Code: VP-RTCS-LS2

Availability: 7 Days

Weight: 2.00kg

Dimensions: 20.00cm x 15.00cm x 5.00cm

Price: \$253.00

Short Description

Race Ready Timing Chain Sets to suit your LS2!

Description

This kit is for the half moon style as used in VZ Commodores with the 24X trigger wheel.

These timing chain sets are produced using billet steel for both the crank and camshaft sprockets for both single and double row chain sets.

These sets are light weight and stronger than any other timing set available due to the weight savings of billet steel and CNC machinery.

Need Help selecting the right Cam Trigger?

- Half Moon - Used in vehicles with a 24x Crank Triggered ECU's (eg. VT-VZ 5.7L LS1's and VZ HSV)
- 4-Point - Used in vehicles with 58x Crank Triggered ECU's (eg. VE-VF 6.0-6.2)

Please Note

- *All timing covers apart from LS1's will require modification to allow fitment of Double Row Chain sets.*
- *Due to LSA Engine Crank design, only LSA specific double row chain sets are compatible.*
